SECTION A - SUPPLEMENTAL INFORMATION

1. This Modification P00007 approves Deviation W003 (for the LTT steel center drawbar), W007 (for the LTT Shackle) and W008 (for the LTT Wiring Harness). This effects all remaining Trailers balances on all Delivery Orders.
2. The approved Deviation W003 authorizes the Contractor to provide a steel drawbar that has a different chemical composition than that which is listed on drawing #12379989. The new steel will be IAW ASTM A500. The chemical composition, although similar, will not meet the drawing specified trace element values (Chromium[N/A], Molybdenum[N/A], Silicon[.02 min. in lieu of .15 min.], or Manganese[.82 min. in lieu of .85 min.]). The dimensional values will not deviate from that which is specified. This material will be heat treated to meet the mechanical properties specified on the drawing (110,000 min. yield strength & RH C32 max. hardness).
3. The approved Deviation W007 authorizes the Contractor to tac weld the shackle securing nut IAW MIL-STD-209J and use the shackle configuration and requirements specified on drawing #12342354 to meet the requirements of RR-C-271D, type IVA, class 3, grade B.
4. The approved Deviation W008 authorizes the Contractor to take the existing wiring harness (P#12449998) and replace the specified black tape covering (note 6) with a black nylon loom covering. Additionally, eliminate the conduit (P#12449397-2)from the TDP when this nylon loom is utilized.
5. The Contractor and Government do mutually agree that any claims or obligations arising as a result of this Modification P00007 are hereby satisfied.
6. All other Terms And Conditions remain unchanged.
